Accessing the South Carolina Conservation Bank Priority Maps in your GIS.

The SCCB Priority Maps can be accessed from ArcMap by adding the layers from ArcGIS Online. To add the data to an ArcMap document:

1) Click the Arrow on the Add Data button in ArcMap.
2) Click "Add Data from ArcGIS Online"
3) Search for "SCCB Conservation" in the search box.
4) The Conservation Priority Models will be returned in the results. Click 'Add' underneath each model to add it to the map.
